Subject: Michelle Reich (*nee* Dittner)

Jim,

I am Michelle's younger sister Jacqueline.

Yes, Michelle passed away in her home surrounded by family and friends in 2012.

In her life she was very successful. She was the founder and owner of one of the Top 10 woman owned business in the United States. She was an internationally known Interior Designer.

She married, had no children of her own and she and her late husband, Stu traveled the world.

She spent many years in Florida where her business was based.

Later, after her husband's passing, she joined me here in Ashland, Oregon where she renovated a historic home and lived her last years.

Mickey was a very charismatic powerhouse...

She was very generous and funny, with a biting wit...

She died too young but she lived a very full and privileged life.

Sincerely,

Jacqueline
